Standard:

Heavy duty pivoting draw bar coupler eye made of special steel and no welds, is specially developed and produced by Jan Veenhuis.

Standard:

Specially designed by us, the double beamed pivoting tandem axle with:

- Eccentrically positioned main axle.
- Main axle with easy to replace nylon bushings.
- Central lubrication of the main axle.
- 54% of the total weight on the rear tires.
- 46% of the total weight on the front tires.

Standard:

Nylon bushings in main axle pivot are easy to replace by unbolting the retainer. A central lubrication bank makes servicing the tandem easy.
